

LUMI

RING SIZE GUIDE

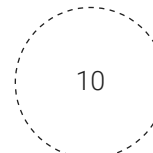

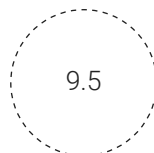

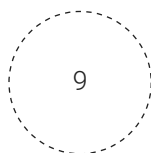

Measure with an existing ring

To find the perfect ring size, print the LUMI ring size chart making sure you select "Fit to paper" on the scale, and compare one of your existing rings with it.

Make sure you use a ring that fits well on the finger you plan to wear your new LUMI ring.

Place your ring on the chart's circles to determine your size. The inside of your ring should match with one of the circles. LUMI uses US sizing, the number inside the circle corresponds to that specific size.

* This is for reference only. LUMI cannot be held responsible for any errors that occur as a result of measuring your finger.
